- Hindi

## PROJECT

### Food Delivery app

- Developed this app using ReactJs.
- Proficiently employed React Redux for effective state management.
- Utilized React Hooks for streamlined component development .
- Implemented Tailwind CSS for responsive and visually appealing design.
- Fetched live data from the Swiggy API .

### Netflix App

- Developed a Netflix-style web application using ReactJS.
- Integrated user authentication and validation features to enhance the security and usability of the application.
- Leveraged Google Firebase for backend services including user authentication and real-time data storage.
- Used React router for client side routing and managing the navigation and rendering of different components or views in a single-page application (SPA) without requiring full page refreshes.
